An Invitation to Join PAN
the Performing Artists Network

Opcode Systems welcomes you to the world of professional music
software.
With the purchase of selected products, Opcode wishes to extend to
you a special opportunity to join PAN:
the Performing Artists Network.

PAN is an electronic bulletin board accessed using your Macintosh
and a modem. It is the premier forum for professional musicians to
exchange ideas, concepts, and other points of interest in the industry.

PAN normally requires a $150 new member fee to join. However, by
simply marking the appropriate box and returning your registration
card, Opcode will send you a special Authorization Number allowing
you to join PAN without the new member fee.

*In order to permit as many people to join, only one Authorization Number request per person can be
processed. Allow two weeks for delivery.*
